# Universal Functions and Plotting

## with Stine

# What will we cover?

This section is all about plotting using NumPy and MatPlotLib.

# What will we cover?

This section is all about plotting using NumPy and MatPlotLib.

| Content |
| --- |
| We will learn to: |
| 1. Use functions like cos, sin, and exp. |

# What will we cover?

This section is all about plotting using NumPy and MatPlotLib.

## Content

We will learn to:

1. Use functions like cos, sin, and exp.
2. Use constants like $\pi$ and $e$.

# What will we cover?

This section is all about plotting using NumPy and MatPlotLib.

## Content

We will learn to:

1. Use functions like cos, sin, and exp.
2. Use constants like $\pi$ and $e$.
3. Plot functions.

# What will we cover?

This section is all about plotting using NumPy and MatPlotLib.

## Content

We will learn to:

1. Use functions like cos, sin, and exp.
2. Use constants like $\pi$ and $e$.
3. Plot functions.
4. Make bar plots.

# What will we cover?

This section is all about plotting using NumPy and MatPlotLib.

## Content

We will learn to:

1. Use functions like cos, sin, and exp.
2. Use constants like $\pi$ and $e$.
3. Plot functions.
4. Make bar plots.

## Exercise Set

The exercise set will be a continuation of the previous exercise set, with focus on plotting the temperature data.
